

Concentrated Neutralizing Cleaner

Metal Plus is a film fighting solution specifically formulated to remove salt films and soap scum to neutralize the Ph of the surfaces being cleaned. It is a concentrated blend of chelating ingredients, sequestering additives, highly active surfactants, leading edge wetting agents in an environmentally safe powerhouse product. It is chemically balanced so no rinse is required. This product is a valuable maintenance tool for floors and walls that must be cleaned frequently.

Part No: 282005

Directions:

Automatic floor scrubbing, mop & bucket, stripper rinse, ice melt residue and marble floors
Shower walls & floors, use straight or diluted for the removal of soap deposits, stubborn hard water stains and incrustations. Dilute less to clean porcelain, toilets and urinals.
